

Image Gallery with Filters (jQuery)

Objective:

Create an interactive image gallery where users can filter images based on categories using jQuery.

Requirements:

1. **Gallery Section** displaying images in a grid.
2. **Filter Buttons** (e.g., All, Nature, Animals, Architecture).
3. **jQuery Features:**
 - Clicking a button shows only relevant images.
 - Smooth animations when filtering.
 - Hover effect showing image titles.
4. **Styling:**
 - Use CSS for layout and design.
 - Apply hover effects.
